

## R Code for Plot2

```
> png(filename="Plot2", width = 480, height=480, units ="px")
> x <- PowerData$Time
> y <-PowerData$Global_active_power
> x_range <- range(PowerData$Time)
> y_range <- range(PowerData$Global_active_power)
> plot(x, y, type="l", ylab="Global_active_power (kwatts)", xlim=x_range, xla
b="time", ylim=y_range, main="Global Active Power")
> dev.off
```
